

Price of hot-dip galvanized cable trays in Xinye

AI Overview

Hot-dip galvanized cable trays in China, including Xinye, typically range from \$2.5 to \$17.6 per unit depending on type, size, and load capacity.

Price Overview Hot-dip galvanized cable trays are available in several types, including ladder trays, perforated trays, solid bottom trays, and welded trays, each designed for specific load and ventilation requirements. Prices generally range from \$2.5 to \$17.6 per unit, with smaller or lighter trays at the lower end and heavy-duty, large-size trays at the higher end (Alibaba) . Factory quotations may vary based on material thickness, tray width, and customization options (Holdee Electric) .

Factors Affecting Price

Tray Type: Ladder trays are typically more expensive than perforated or solid trays due to structural strength requirements .

Material Quality: Hot-dip galvanization ensures corrosion resistance; thicker zinc coatings or compliance with ASTM A123 standards can increase cost .

Size and Load Capacity: Wider trays or those designed for heavy cable bundles cost more due to higher steel usage .

Supplier and Location: Xinye may source trays from nearby manufacturers in Shandong or Jiangsu provinces, which are major production hubs in China . Local procurement may slightly reduce shipping costs.

Market Trends The hot-dip galvanized cable tray market in China is growing steadily due to industrial modernization and infrastructure projects, particularly in the Asia-Pacific region. China accounts for over 45% of global production, making it a competitive source for cost-effective, high-quality trays . OEM and custom designs are widely available, allowing buyers in Xinye to request specific dimensions or load ratings.

Supplier Options

Jiangsu Holdee Electric Co., Ltd.: Offers ladder, perforated, and solid trays with OEM customization .

Shandong Xinming Electrical Equipment Co., Ltd.: One of the top manufacturers in China, supplying hot-dip galvanized trays suit...
