

Price of residential electrical distribution boxes in Benin

AI Overview

Residential electrical distribution boxes in Benin typically range from around 1,200 to 4,000 CFA per unit, depending on specifications and accessories.

Price Overview In Benin, the cost of an in-home electrical distribution box depends on the type (single-phase or three-phase), materials, and included accessories. For a standard single-phase distribution box designed for residential use, prices start at approximately 1,244 CFA for a basic setup with three H07V-K 1.5 mm² cables under a 16 mm ICTA tube, with additional costs for accessories and special components potentially increasing the price by 30% . For more advanced or high-voltage distribution boxes, prices are generally higher and may require direct inquiry with suppliers or wholesalers . Suppliers such as COBEDIMEN, EKEA SARL, BENELEC, and CPER offer a range of electrical distribution equipment and can provide quotes based on specific residential needs .

Factors Affecting Price

Type of box: Single-phase boxes are cheaper than three-phase or high-voltage boxes.

Accessories: Inclusion of circuit breakers, prepayment meters, or surge protection increases cost .

Installation requirements: Professional installation and compliance with local standards may add to the total cost.

Supplier and brand: International brands like Legrand, Schneider, Siemens, and ABB may be priced higher than local manufacturers .

How to Purchase To obtain the most accurate pricing, it is recommended to contact suppliers directly through their websites or local offices. Many suppliers in Benin respond to inquiries and provide quotations based on the exact specifications and quantity required .

Additional Considerations

Maintenance costs: Some sources indicate a decennial maintenance cost of around 43.55 CFA per 10 years for standard residential distribution networks .

Compliance: Ensure that the distribution box meets local electrical standards (NF C...
