

Price of stainless steel cable trays in East Africa

AI Overview

Stainless steel cable trays in East Africa typically range from \$50 to \$200 per 8-foot section, depending on material grade, size, and customization options.

Pricing Overview

In East Africa, stainless steel cable trays are available in 304 and 316 grades, with 304 being the most common for industrial and commercial applications due to its corrosion resistance and durability. Prices vary based on:

- Tray type:** Ladder, perforated, mesh, or solid bottom trays. Ladder and perforated trays are generally more affordable, while solid bottom trays cost more due to higher material usage.
- Dimensions:** Standard lengths are 8 feet (2.44 meters), with widths ranging from 25mm to 100mm and heights from 50mm to 600mm. Larger or custom sizes increase the price.
- Thickness:** Stainless steel trays are commonly fabricated in thicknesses from 0.6mm to 3.0mm. Thicker trays provide higher load capacity but are more expensive.
- Customization:** Custom manufacturing for specific industrial or data center requirements can increase costs.

Supplier Options in East Africa

- TDK Tech Store (Kenya):** Offers a variety of stainless steel cable trays, including ladder, perforated, and solid bottom types. They provide standard and custom sizes suitable for industrial, commercial, and telecom applications.
- EasyTrade Africa:** Supplies 304 stainless steel trough cable trays with customizable dimensions, ideal for harsh environments and industrial installations.
- Hutaib Electrical (Africa-wide):** Manufacturer and wholesaler providing stainless steel trays (SS-202/304/316) and accessories such as bends, elbows, and reducers. They offer both standard and fully customized solutions across Africa.

Estimated Price Range

- Small to medium trays (50x50mm to 100x100mm, 0.8-1.2mm thickness):** Approximately \$50-\$100 per 8-foot section.
- Larger trays (200x100mm to 300x100mm, 1.5-3.0mm thickness):** Ap...
