

Price per unit of steel cable trays in Kuwait

AI Overview

Steel cable trays in Kuwait typically range from KD 5 to KD 25 per meter, depending on type, size, and finish. Overview of Pricing The cost of steel cable trays in Kuwait varies based on several factors:

- Type of tray:** Perforated, ladder, or solid-bottom trays have different prices. Perforated trays are generally less expensive than ladder-type trays due to material and manufacturing differences.
- Material and finish:** Hot-dip galvanized steel trays are common and provide corrosion resistance, which slightly increases the price compared to plain steel. Stainless steel or powder-coated trays are more expensive.
- Dimensions:** Width, depth, and thickness of the tray affect the price. Larger trays (e.g., 450x50 mm) cost more than smaller ones (e.g., 200x50 mm) due to higher material usage.
- Supplier and origin:** Local manufacturers like Bahman Group and EBOMAC provide competitive pricing and faster delivery, while imported trays from India, South Korea, or Germany may include shipping and customs costs, affecting the final price.

Typical Price Range Based on market trends and import data:

- Small perforated trays (200x50 mm): Approximately KD 5–8 per meter
- Medium trays (200x75 mm): Approximately KD 8–12 per meter
- Large trays (450x50 mm or ladder type): Approximately KD 15–25 per meter

Accessories such as bends, tees, reducers, and couplers are sold separately and can add 10–30% to the total cost depending on complexity.

Local Suppliers

- Bahman Group:** Offers GI cable trays, ladders, and trunking for local projects and infrastructure.
- EBOMAC:** Supplies medium and low voltage switchgear along with steel cable trays, with local support and installation services.
- Almeer Industries:** Provides a range of cable tray systems suitable for commercial and industrial construction.
