

Price quote for high-quality stainless steel cable trays

AI Overview

Stainless steel cable trays currently range from approximately ₹75 per meter to over ₹95 per meter in India, with prices varying by grade, type, and supplier.

Price Overview

The cost of stainless steel cable trays depends on several factors including material grade (304 or 316 stainless steel), tray type (ladder, perforated, or solid bottom), width, depth, and surface finish. Standard widths range from 50mm to 900mm, and depth variations accommodate different cable loads, influencing the price.

India Market (May 2026): Suppliers on IndiaMART list starting prices as follows:

- Damodar Perforators: ₹75/kg
- Diya Engineering: ₹75/meter
- JP Electrical and Controls: ₹95/meter

B2C Retail: Prices can range from \$15 to \$34 per unit, depending on size and configuration.

B2B Bulk Orders: Prices may drop significantly, ranging from \$0.80 to over \$76 per unit, depending on volume and customization.

Factors Affecting Pricing

- Material Type:** Stainless steel is more expensive than galvanized steel or aluminum due to superior corrosion resistance.
- Tray Type:** Ladder trays are costlier but support heavier cables; perforated trays are slightly cheaper and suitable for lighter loads.
- Surface Finish:** Polished or coated finishes increase durability and price.
- Order Quantity:** Bulk purchases can reduce per-meter costs by 20–40%.
- Customization:** OEM or factory-direct trays tailored to specifications may carry a premium.

Supplier Options

- IndiaMART:** Offers multiple suppliers with competitive pricing and quick response for bulk orders.
- Factory-Direct/OEM:** Provides tailored solutions with potential cost savings and compliance with specific installation requirements.
- International Suppliers:** Alibaba and other B2B platforms offer lower per-unit costs for large-volume orders, though shipping and import duties may apply.

Practical Considerations

When selecting stainless steel cable trays, consider load ca...
