

Reasonable price for South African mesh cable trays

AI Overview

Wire mesh cable trays in South Africa typically range from approximately ZAR 200 to ZAR 1,200 per meter, depending on material, duty rating, and accessories.

Price Range and Factors

- Material:** Mild steel trays are generally more affordable, while stainless steel trays command higher prices due to superior corrosion resistance and durability, especially for industrial or marine environments (Steelcraft).
- Duty Rating:** Light-duty trays are at the lower end of the price spectrum, medium-duty trays (e.g., WM-50) are mid-range, and heavy-duty trays (e.g., WM-75) are more expensive due to higher load capacity (Advanced Strut).
- Size and Dimensions:** Wider or deeper trays cost more, as they require more material. Standard widths range from 100 mm to 600 mm, with lengths typically sold per meter.
- Accessories:** Bends, tees, crosses, and mounting hardware add to the overall cost. Customizable options, such as 90° bends or 4-way crosses, can increase the price (Steelcraft).
- Supplier and Delivery:** Prices vary slightly between suppliers like Liteglo, Online Electrical, and Advanced Strut, with some offering online discounts or bulk pricing.

Typical Market Estimates

- Light-duty mild steel trays: ZAR 200–400 per meter
- Medium-duty trays (WM-50): ZAR 400–700 per meter
- Heavy-duty trays (WM-75): ZAR 700–1,200 per meter
- Stainless steel trays: Can exceed ZAR 1,000 per meter depending on size and customization

Recommendations

- Compare multiple suppliers to ensure competitive pricing.
- Consider total cost including accessories and installation hardware.
- For corrosive or industrial environments, investing in stainless steel may reduce long-term maintenance costs.
- Request quotes for bulk orders, as suppliers often provide discounts for larger quantities.

By considering these factors, you can determine a reasonable price for your specific mesh cable tray requirements in South Africa.
