

Rwanda Cable Tray Specifications and Dimensions Diagram

AI Overview

Cable trays in Rwanda are available in various types, materials, and sizes to suit industrial, commercial, and residential electrical installations.

Cable Tray Specifications Overview

The following table summarizes the common specifications for cable trays available in Rwanda, based on local manufacturers and suppliers:

Feature	Specification / Options
Types	Ladder Cable Tray, Perforated Cable Tray, Solid Bottom Tray, PVC Cable Tray, Stainless Steel Tray, Mild Steel Tray, Raceway
Materials	Galvanized Steel, Stainless Steel, Fiberglass, PVC, Mild Steel
Width Options	50 mm – 600 mm (customizable per project)
Height / Side Rail	25 mm – 150 mm
Length	Standard 2 m or 3 m sections; custom lengths available
Load Capacity	Light, Medium, Heavy Duty (depends on material and tray type)
Finish / Coating	Hot-dip galvanized, Powder-coated, Painted, Stainless steel finish
Perforation	Perforated trays for ventilation and heat dissipation; solid trays for full protection
Standards Compliance	Manufactured to meet international electrical safety and industry standards
Applications	Industrial plants, commercial buildings, data centers, residential wiring, mining, automotive, and construction projects
Installation Features	Easy assembly, modular design, supports cable organization, promotes airflow, reduces overheating, and allows maintenance access
Customization	Sizes, shapes, and configurations can be tailored to project requirements
Key Considerations	Material Selection: Stainless steel and fiberglass are preferred for corrosive environments, while galvanized steel is common for general use. Tray Type: Ladder trays are ideal for heavy cable loads and ventilation, perforated trays for medium loads with heat dissipation, and solid trays for protection against dust and debris. Load Rating: Ensure the tray selected can support the total...
