

SN fiber optic connector patch cord

Overview

The SN Fiber Optic Patch Cord represents the ultimate solution for next-generation Base-2 optical connectivity. Designed to deliver unmatched packing density with high-performance reliability, the SN® connector is the ideal choice for data centers, enterprise networks, and telecom. The SN ® Fiber Optic Patch Cords is the ultimate designed and optimized for next-generation data rates, the SN ® patch cord offers network operators the chance to densify their existing legacy infrastructure whilst at the same time providing an upgrade path to 400G and beyond. It is suitable for.

- Featuring a compact SN connector, these patch cords maximize port density and improve cable management efficiency.
- Low insertion loss and high return loss ensure stable and reliable signal transmission.

SENKO's SN connector is a Very Small. The SN® connector is a new duplex optical fiber connector designed for Data Center 400G optimization.
