

Single-mode pigtail jumper wire direct sales manufacturer

AI Overview

Single-mode fiber optic pigtail jumpers are available directly from manufacturers like TXM, Leviton, Siemon, and Multilink, offering custom lengths, connector types, and high-quality fiber assemblies. Key Manufacturers and Suppliers

TXM Manufacturing
TXM offers both standard and custom single-mode fiber pigtails and jumpers. They can produce assemblies with strand counts from 1 to 228 fibers, including simplex and duplex configurations. Custom options include breakout, fan-out, and armored cables. TXM provides SC/APC, LC, and other connector types, with precision zirconia ferrules for low insertion loss and bend-insensitive fiber options. They also allow customers to build custom cables online and provide same-day shipment for standard jumpers.

Leviton Network Solutions
Leviton provides single-mode fiber pigtail kits suitable for mechanical or fusion splicing. Their pigtails come in SC, ST, or LC connectors and offer both premium low-loss options and economy versions. Custom lengths are available, and same-day shipping is offered for orders received before noon Pacific Time.

Siemon (XGLO and LightSystem)
Siemon's XGLO fiber jumpers and pigtails support single-mode applications with APC angled polish connectors. These assemblies meet IEC, TIA, and Telcordia standards for insertion loss and return loss. They are suitable for FTTH, PON, CATV, LAN, and WAN applications, and come with a 20-year warranty when installed in qualified systems.

Multilink
Multilink offers single-mode fiber pigtails and jumpers for indoor and outdoor applications. Their assemblies use bend-insensitive OS2 fiber and are available with SC, LC, and ST connectors. They provide multi-channel and drop cable assemblies, with online configurators to customize lengths and connector types. Each assembly includes insertion loss testing and adheres to ISO 9000 quality standards.
