

# Supply of Fiber Optic Fast Connectors in the Middle East

## AI Overview

The Middle East relies heavily on imported fiber optic fast connectors, with key suppliers including Naficon, MEFC, and Canare, while demand is driven by data centers, 5G networks, and smart city projects. Key Suppliers and Manufacturing Naficon Fiber Optic Manufacturing LLC, based in Dubai, UAE, serves as a major manufacturing and supply center for fiber optic products in the Middle East, offering high-quality solutions for broadband, FTTH, and data center networks . Middle East Fiber Cable Manufacturing Co. (MEFC), a Saudi-Japanese partnership in Riyadh, produces a wide range of fiber optic cables and accessories, including single-mode, multi-mode, and angled fiber connectors (FC, ST, SC, MT-RJ, LC, MU). MEFC connectors comply with IEC and Bellcore standards and are designed for FTTX, GPON, EPON, telecommunication, CATV, and LAN networks . Canare Middle East FZCO, also in the UAE, provides fiber-optic systems, connectors, and networking products, supporting both broadcast and data communication applications . Market Trends and Demand The MTP/MPO fiber connectors market in the Middle East is projected to grow at a compound annual growth rate of 11-14% through 2035, driven by hyperscale data center construction, 5G network densification, and smart city initiatives in the Gulf states . Data centers and cloud infrastructure account for 45-55% of regional connector consumption, with the UAE and Saudi Arabia leading in capacity expansion. The region remains 75-85% dependent on imported MTP/MPO connectors, with supply concentrated through specialized distributors and value-added integrators in Dubai, Doha, and Riyadh . Migration from 12-fiber to 24- and 32-fiber configurations is accelerating, increasing demand for high-specification cable assemblies. Supply Chain and Procurement Lead times for premium-grade MTP/MPO...
