

Surface-mounted fiber optic terminal box

Overview

The fiber optic terminal box is designed for FTTx applications, accommodating at least 4-16 users. Suitable for both indoor and outdoor use, it supports wall and pole mounting. Available with 1,2,4 fibres Pre-connectorized cable Multiple lengths available Easy to through tube Protection against any risk of interference with the laser beam Security in connection cord retention The reliability of the grip of the socket on the wall DIN rail mounted application Support fiber. CommScope offers a diverse range of surface mount boxes that are UL-rated and specifically designed for copper and fiber connectivity and termination. The small and lightweight ftth terminal box is ideal for mini network termination, enabling reliable connection between drop cables and ONT (Optical Network Terminal). This 4 port indoor FTTH terminal box features 4x SC/APC fiber optic outlet designed for FTTH applications, providing a reliable and efficient solution for fiber termination, splicing, and cable management. The enclosure comes pre-loaded with adapters and offers protection for the fiber cable and connectors for indoor wall-mount.
