

Swedish Antistatic Cable Tray Manufacturer

AI Overview

Nordic Wire Tray (NWT) is a leading Swedish manufacturer of high-quality, antistatic cable trays and wire ladder systems. Nordic Wire Tray (NWT), based in Sweden, specializes in wire trays, data racks, and complete cable management systems designed for demanding environments. Their X-Tray product line offers antistatic and corrosion-resistant solutions, suitable for industrial, commercial, and data center applications. NWT provides customizable trays that can be cut, bent, and adapted to specific project requirements, ensuring flexibility for unique installations. The trays are designed for fast and easy installation, requiring minimal tools and fasteners, which reduces labor time and costs.

Key Features:

- Antistatic and high-quality materials for sensitive environments
- Customizable dimensions and shapes to fit unique projects
- Easy installation with fewer fasteners and minimal tools
- Durable and corrosion-resistant for industrial and commercial use
- Over 20 years of experience in cable management systems

Ahlsell, a Swedish distributor, offers a wide range of cable trays including antistatic and perforated options suitable for industrial and commercial installations. They provide standardized cable ladders and trays with various lengths and load capacities, as well as accessories for mounting and installation. Ahlsell is ideal for projects requiring readily available stock and local support in Sweden.

Wibe Group, although Wibe Group is an international manufacturer, they offer antistatic GRP (Glass Fibre Polymer) ladder and tray systems suitable for extreme environments, including industrial, data centers, and offshore applications. Their products are non-conductive, corrosion-resistant, and tailored for critical installations, making them a strong option for specialized projects requiring antistatic properties.

Summary: For Swedish antistatic cable trays, Nordic Wire Tray (...)
