

TF Optical Cable

Overview

TFOCA cables, short for Tactical Fiber Optic Cable Assemblies, are rugged fiber optic solutions built for the most demanding environments. Originally designed for military use, these cables are known for their durability, quick deployment features, and reliable data transmission. TFKable supplies land cables and accessories for key Polish offshore wind. TFOCA are extremely strong, lightweight, rugged, survivable tight-buffered cables designed for military tactical field use and commercial applications. Breakout cable design with an individual color-coded subcable surrounding each optical fiber. It is a DuraTAC stainless steel armored cable which is up to ten times stronger than ordinary tactical cables, without any. TFKable is a global leader in the production of high and extra-high voltage cables, specializing in the energy sector. The company has a proven track record of supplying power grid operators and has successfully passed production process audits. We offer access to the full range of products, as well as assistance in choosing the best option. Feel free to contact us for more information.
