

Tajikistan Free Quotation for 24-Core Fiber Optic Distribution Frame

AI Overview

You can request a free quotation for a 24-core fiber optic distribution frame (ODF) from multiple suppliers offering modular, high-density solutions suitable for data centers, FTTH, and telecom networks.

Overview A 24-core fiber optic distribution frame (ODF) is a centralized hub for organizing, terminating, splicing, and distributing fiber optic cables. It ensures efficient connectivity, structured cable management, and protection of fiber connections in environments such as data centers, server rooms, FTTH networks, and enterprise LAN/WAN systems. These frames are designed for high-density applications while maintaining compact form factors, often compatible with 19-inch standard racks or wall-mounted installations.

Key Features

- Core Capacity:** 24 cores, with options to expand to 36, 48, 72, or 96 cores for future scalability.
- Construction:** Typically made from cold-rolled steel for rigidity and durability, with modular trays for splicing and patching.
- Installation Flexibility:** Rack-mountable or wall-mounted, suitable for indoor or controlled outdoor environments.
- Cable Management:** Includes splice holders, fiber guides, and adapters for single or ribbon fibers, ensuring minimal signal loss and easy maintenance.
- Environmental Protection:** Some models are dust-resistant, weatherproof, and temperature-regulated for harsh conditions.

Applications

- Telecommunications
- Subscriber Loops
- Fiber to the Home (FTTH)
- LAN/WAN Networks
- CATV Distribution
- 5G Base Stations
- Data Centers

How to Get a Free Quotation

Several suppliers provide custom ODF solutions with free quotations:

- OTRANS:** Offers modular ODFs with 24-core options, flexible configuration, and international compliance. Free quotes are available directly on their website.
- Alibaba Suppliers:** Multiple manufacturers provide 24-core fiber distribution frames with options for rack or wall installation, environmental pro...
