

Technical Specifications of Upgraded Outdoor Integrated Power Cabinet

Overview

Featuring a robust 48V 100Ah LiFePO4 battery, IP55-rated enclosure, and 1500W cooling capacity, this cabinet ensures reliable power storage and distribution in demanding environments. Through intelligent upgrade, the site achieves efficient power generation and supports two-wing services, reducing carbon emissions by 10 tons per year. The upgraded site halves electricity fees and cuts O&M costs by 75%, and reduces carbon emissions by eight tons per year. With IP55/IP65-rated enclosures (other IP on request), these outdoor UPS cabinets combine UPS electronics, breaker. Available in different configurations, Delta OutD cabinets are designed to protect equipment from external threats in all climates from the tropics to the arctic. In addition to traditional cooling methods, Delta's new hybrid cooling options revolutionize the cost structure of thermal management. Real-Time Intelligent Management: Features real-time liquid leakage monitoring and intelligent battery management to ensure consistent.
