

There s a tool called a conduit puller for threading fiber optic cables

Overview

The Zinger is designed to be used with a cordless or electric drill to assist in pushing or pulling fiber optic cable, a fiberglass rodder, or other types of stiff wire or cable (product) through a conduit. It can also pull a string or mule tape through a duct or conduit. From long haul to fiber-to-the-premises, Condux International has the equipment you need for successful fiber optic cable installation. From fiber optic pullers and blowers to specialized accessories, Condux products deliver the precision and durability contractors need to handle. Condux 08690001 Fiber Optic Cable Pullers consist of a hydraulic motor, variable speed foot control, manual flow control valve for adjusting maximum speed and a manually adjustable pressure relief valve for adjusting the ultimate pull tension.
