

UAE Micro-Module Data Center

Overview

Dubai Airports will partner with Huawei to design and build the world's first Tier III certified Modular Data Centre Complex (MDCC) at Dubai International (DXB), it was announced today. As one of the pioneers in modular data centers, we are dedicated to exploring innovative solutions to provide more energy-efficient, economical, and flexible configurations that better match your current and future needs. From single container data centers to multiple container modular. The UAE is transforming into a global data center hub, driven by AI, sovereign cloud, and hyperscale investments. Fully integration with smart monitoring, low PUE cooling technologies, high reliability power supplies, full method access control and security protections. Each Module is factory fitted with components and facilitates easy and quick assembly at site. With staunch utilization of modern.
