

Vanuatu Multimode Armored Optical Cable Price

AI Overview

Multimode armored fiber optic cables, such as OM3 or OM4, typically range from \$8.50 to \$13.50 per foot depending on construction and performance features.

Price Overview

The cost of multimode armored fiber optic cables depends on several factors:

- Fiber Type:** OM3 and OM4 are higher-performance multimode fibers, with OM4 generally costing more due to better bandwidth and future-proofing capabilities.
- Construction:** Armored cables, designed for harsh environments, are more expensive than standard riser or plenum cables because of added steel or aluminum protection against crushing, bending, moisture, and rodents.
- Application:** Military-grade or tactical cables are priced lower per foot in some cases (\$8.50/ft for OM4 tactical) due to bulk or specialized procurement, while commercial ILA armored OM4 cables can cost around \$13.50/ft.
- Factors Affecting Cost**
 - Cable Jacket and Rating:** LSZH (Low Smoke Zero Halogen) jackets or plenum-rated cables increase cost due to fire safety and environmental compliance.
 - Fiber Count:** Higher fiber counts (e.g., 12-fiber or 24-fiber trunks) increase the price per cable run.
 - Pre-Terminated Assemblies:** Factory-terminated cables with LC, SC, or ST connectors are more expensive but reduce installation time and labor costs.
 - Environmental Protection:** Armored cables are essential for outdoor or direct burial installations, justifying higher prices compared to non-armored cables.

Estimating Costs for Vanuatu

While exact local pricing in Vanuatu may vary due to shipping, import duties, and supplier markups, you can use the \$8.50-\$13.50 per foot range as a baseline. For a 100-foot run of OM4 armored multimode cable, the estimated cost would be \$850-\$1,350, excluding shipping and taxes.

Recommendations
