

West Asia Flame Retardant Cable Tray Manufacturer

AI Overview

Key sources for flame-retardant cable trays in West Asia include UAE-based suppliers like West Port, offering fire-resistant trays and accessories compliant with safety standards.

UAE-Based Manufacturers and Suppliers

West Port (UAE): Provides fire-resistant cable trays and accessories in Dubai and across the UAE, ensuring durability, safety, and compliance with fire protection standards. Their products are suitable for industrial, commercial, and infrastructure projects where fire safety is critical.

International Manufacturers Supplying West Asia

NewReach: Specializes in fire-rated cable trays made from materials such as stainless steel, galvanized steel, tempered glass, and fire-resistant polyester fiberglass. Their trays feature FLAMMOTECT-A and DG-CR 0.7 technologies, offering up to 2-hour fire resistance at 1050°C and compliance with ISO 834-1, EN 1363-1, DIN 4102-12, and AS/NZS 3013:2005. These solutions are suitable for high-rise buildings, industrial plants, hospitals, airports, and offshore facilities.

Anhui Huining Electric Meter & Appliance Group (China): Supplies flame-resistant and fire-proof cable trays along with low-smoke, non-halogen cables. Their products are exported to countries including Saudi Arabia, UAE, Iraq, and Iran, making them a viable source for West Asian projects.

Yongchang (China): Manufactures FRP, GRP, epoxy resin, and flame-retardant composite cable trays. Their trays are corrosion-resistant, lightweight, and suitable for harsh environments such as petrochemical plants, power stations, and industrial facilities. Yongchang exports globally, including to Middle Eastern countries.

Key Considerations

Material Selection: Stainless steel, galvanized steel, and fiberglass with intumescent coatings are commonly used for fire resistance.

Certifications: Ensure compliance with international fire safety standards such as ISO 834-1, EN 1363-1, a...
