

What are some brands of explosion-proof cable trays

AI Overview

Top manufacturers of explosion-proof cable trays include OBO Bettermann, Niedax Group, Legrand, and specialized suppliers like Apex Tray and Creative Composites Group. Leading Manufacturers OBO Bettermann is a global leader in electrical installation systems, offering metal cable trays engineered for demanding industrial environments, including fire-resistant and explosion-proof applications, with a strong presence in over 60 countries. Niedax Group provides a comprehensive portfolio of metal cable tray systems compliant with international standards such as IEC 61537, widely used in industrial, commercial, and energy sector projects. Legrand has expanded its cable tray offerings through acquisitions like AFCO Systems, providing steel and aluminum trays suitable for hazardous environments. Apex Tray specializes in explosion-proof cable trays for chemical plants, offering materials like aluminum alloys, stainless steel (316L), galvanized steel with epoxy coatings, and fiberglass-reinforced plastic (FRP) for Zone 1 and Zone 2 hazardous areas. Creative Composites Group produces high-quality FRP cable trays, ideal for corrosive and structurally demanding environments such as offshore platforms, chemical plants, and refineries. Their FRP trays are non-conductive, impact-resistant, and suitable for Zone 2 areas.

Material Considerations

- Aluminum Alloy:** Lightweight, corrosion-resistant, requires anodizing to prevent static buildup.
- Stainless Steel (316L):** Excellent chemical resistance, ideal for aggressive environments.
- Galvanized Steel with Epoxy:** Cost-effective, corrosion-resistant with proper coating.
- FRP/GRP:** Non-conductive, highly corrosion-resistant, lightweight, and suitable for extreme chemical exposure.

Certifications and Standards Explosion-proof cable trays should comply with ATEX, IECEx, NEC, and GB standards depending on the region and hazardous zone...
