

What types of cable trays are imported into Rwanda

AI Overview

Rwanda imports a variety of cable trays including ladder, perforated, solid, and wire mesh types made from materials like galvanized steel, stainless steel, and fiberglass.

Common Types of Cable Trays

- Ladder Cable Trays** – These trays have side rails connected by rungs, providing strong support for heavy cables and allowing excellent ventilation. They are widely used in industrial and commercial installations to prevent overheating and facilitate maintenance.
- Perforated Cable Trays** – Featuring a solid base with perforations, these trays allow airflow to reduce heat buildup while supporting medium-weight cables. They are suitable for electrical and data cabling systems.
- Solid Bottom Cable Trays** – These trays provide full protection for cables from dust, moisture, and physical damage. They are often used in environments requiring extra safety and protection.
- Wire Mesh Cable Trays** – Constructed from welded or woven metal wires, these trays are lightweight, flexible, and allow easy routing of cables. They are ideal for complex installations and retrofit projects.

Materials Used

- Galvanized Steel** – Offers durability and corrosion resistance, commonly used in industrial and outdoor applications.
- Stainless Steel** – Provides high resistance to corrosion and is suitable for harsh environments.
- Fiberglass** – Lightweight and non-conductive, ideal for chemical plants or areas with high moisture.

Import Sources and Trade Data

Between July 2024 and June 2025, Rwanda imported 164 shipments of cable trays, cover cable trays, and cable trunking, with top exporting countries being Kenya, Turkey, and China. Major importing countries supplying Rwanda include Vietnam, Kazakhstan, and Indonesia. These imports cover a wide range of sizes, shapes, and configurations to meet diverse industrial, commercial, and construction needs.

Applications

Imported cable trays in Rwanda are used in various applications, including industrial facilities, commercial buildings, and infrastructure projects.
