

Wholesale price for 4-core bend-insensitive optical fiber

AI Overview

Wholesale 4-core bend-insensitive optical fiber typically ranges from \$0.40 to \$1.80 per meter, with bulk reels of 100 meters costing \$60-\$90, depending on specifications and order volume. Pricing Overview The cost of 4-core bend-insensitive optical fiber varies based on fiber type, construction, and intended use. Basic indoor distribution cables start around \$0.40 per meter, while ruggedized outdoor or armored versions designed for harsh environments can reach \$1.80 per meter. A standard 100-meter reel of single-mode OS2 4-core cable with tight-buffered construction and PVC jacket usually falls in the \$60-\$90 range, with bulk orders often eligible for tiered discounts . Factors Affecting Price Fiber Type: Single-mode (G.657.A2) fibers optimized for low bending loss are slightly more expensive due to enhanced performance and compliance with ITU-T standards . Cable Construction: Outdoor, armored, or UV-resistant jackets increase cost compared to indoor PVC jackets . Customization: Options like color-coded jackets, custom labeling, or hybrid configurations (fiber with copper conductors) may slightly raise unit cost but improve installation efficiency . Order Volume: Large-scale purchases exceeding 1,000 meters often receive significant discounts, improving cost-efficiency for network deployments . Supplier Options Alibaba offers a wide range of wholesale 4-core bend-insensitive fiber optic cables from international suppliers, suitable for data communication and network installations . Astel Digicom provides 4-core Siamese outdoor cables with steel messenger and FRP protection rods, allowing a single cable to serve multiple telecom operators, which can reduce overall deployment costs . OWIRE Solutions lists competitive pricing with factory-tested cables, warranty coverage, and customization options for large-scale projects . YOFC EasyBand Plus o...
